CHOOSE FLAIR.

CHOOSE

to fulfil this dream of yours.

The dream of your very own premium liner. And this new liner should offer new answers to your desires. With inside space that offers you significantly more freedom without having to give up storage. With an interior that goes above and beyond your demands when it comes to design, material and comfort. With a living area that you can arrange to precisely meet your expectations and needs. And with an innovative technological concept that makes a striking point in terms of functionality and safety. All of these new answers can be found on the following 60 pages.

If you choose to fulfil the dream of your very own liner, make it a

FLAIR.

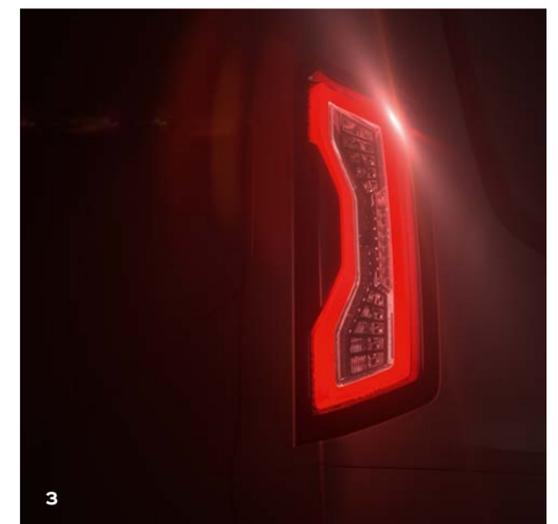

BODY LANGUAGE.

Choose a design language
that speaks clearly.

Our Flair is a phenomenon. A liner that turns heads. Due to its size, and especially due to its modern automotive design. Linear, simple and straightforward. Yet still unmistakable due to its exceptional details. Absolute Niesmann+Bischoff.

- 1 LED daytime running lights with integrated indicators for a continuous light signature
- 2 Signature radiator grille as a distinctive brand face
- 3 Automotive tail lights in a new continuous design

ONE OF A KIND.

Choose a liner that is yours and yours alone.

With its supremely functional interior design, the new Flair offers an almost infinite number of customisation possibilities. As the basis for your personal signature liner, two platforms are available in a length of 8.87 m or 9.27 m. Select from different premium designs and materials and configure all areas to suit your taste. Your new liner. Designed by you.

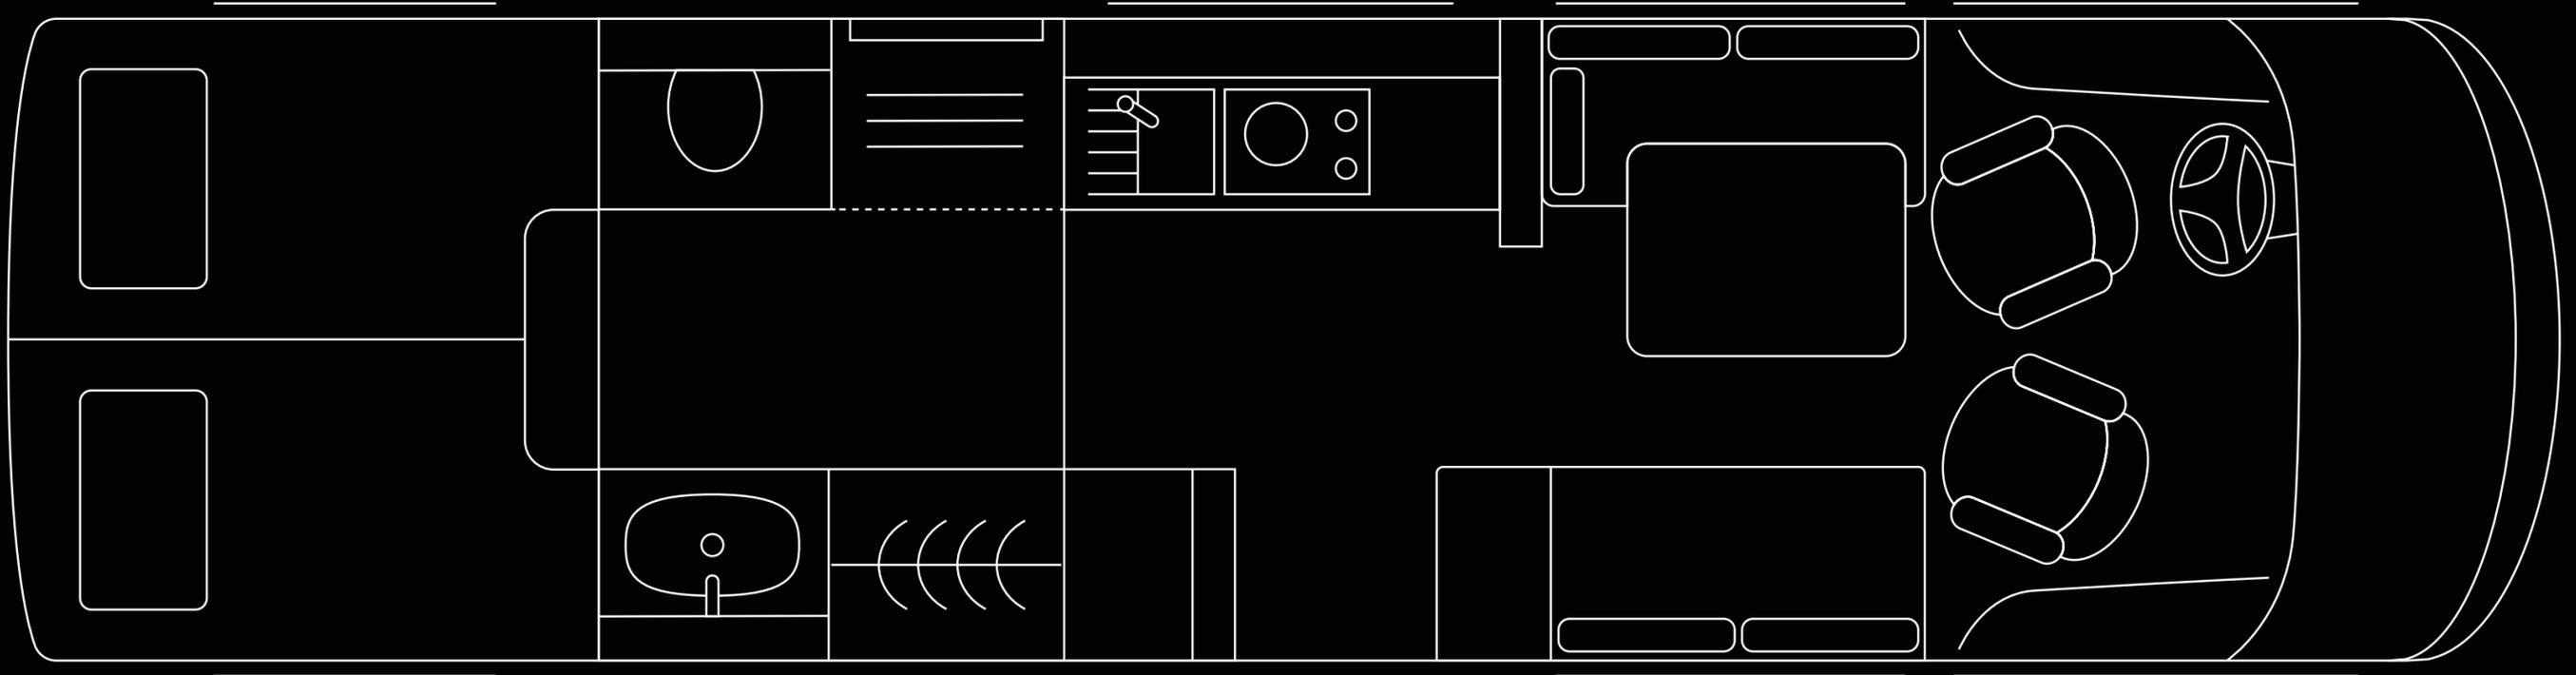

Image shows a platform length of 9.27 m

OPEN PLAN LIVING.

Choose an interior view
that tops the one outside.

The timeless and straight-forward design of the new Flair makes it a unique place of well-being. Both comfortable and functional at the same time. With straight lines and a clear view in all directions. And an open feeling of space where nothing stands in your way.

HIGHLIGHT.

Choose to suddenly see things
in a whole new light.

With our intelligent interior lighting, a whole range of lighting moods can be created at the push of a button. For a welcoming atmosphere. Any time of day.

1

2

- 1 Glass panel as an intuitive control unit
- 2 Ceiling spotlights adjustable in brightness

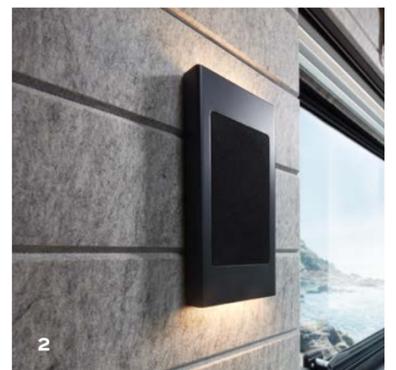

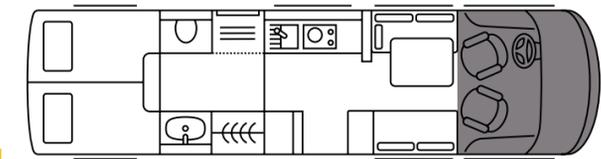

SPACE TRAVEL.

Choose space utilisation that is out of this world.

Linear, geometric wall cupboards provide additional room in the cockpit without having to give up storage. For unfettered travel in any direction and even more options for organising your space.

- 1 **Magnetic notice board*** for customised wall design
- 2 **Surround speakers*** subtly integrated into the wall lights

*optional extra

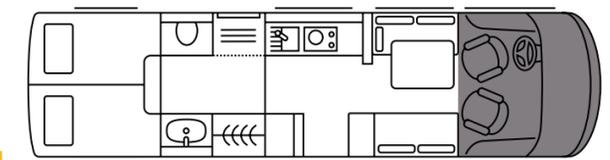

SLEEPOVER.

Choose a bed that practically disappears into thin air.

The cockpit offers room for two additional sleeping spaces if needed. With an optional lifting bed that all but vanishes in the ceiling.

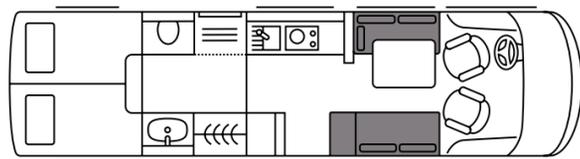

TURNING POINT.

Choose to put a new twist on comfort.

Our comfortable bench seat transforms into two safe belted seats* with one easy step. And looks amazing in both positions thanks to your customised upholstery design.

- 1 Extra storage space**
under the bench seat and in the sideboard
- 2 Sideboard**
with USB charging port
- 3 Smart TV, 32"***
electronic retraction mechanism

*optional extra

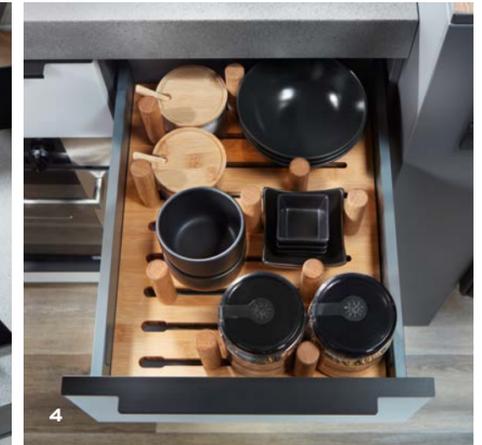

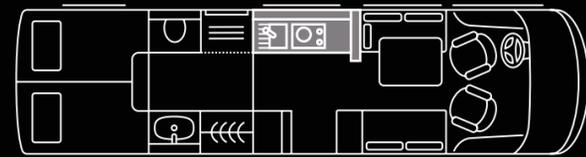

CULINARY ARTS.

Choose to show you really
are cooking with gas.

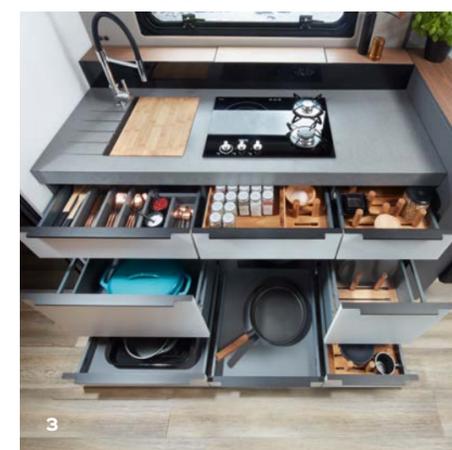

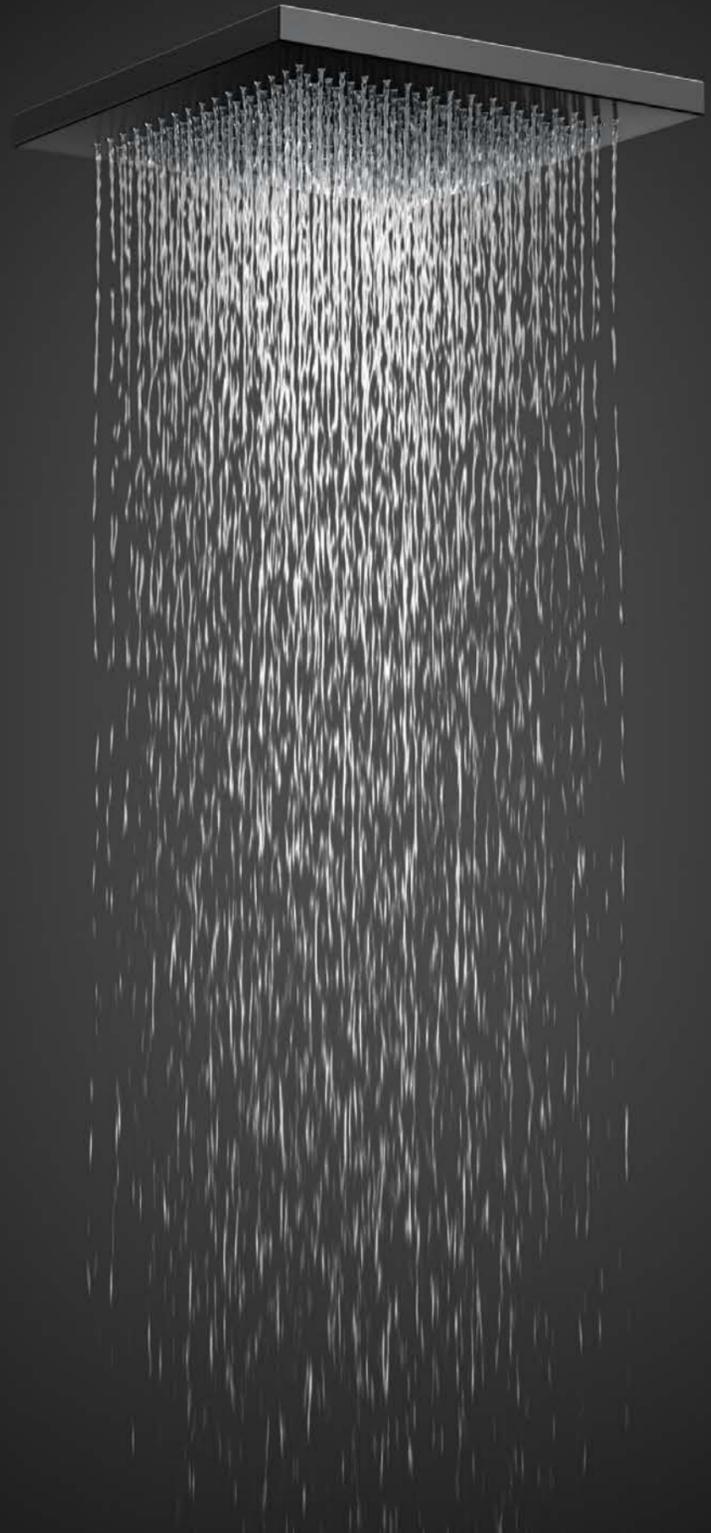

Our customisable and modular kitchen can be adapted to precisely meet your needs. With optional refrigerator drawer, oven, dishwasher or additional storage space.

- 1 **Hybrid hob**
with an induction and two-burner gas hob
- 2 **Integrated cooker hood***
electronic retraction mechanism
- 3 **Generous drawers**
for extra storage space
- 4 **Organisational system***
comprised of flexible inserts
- 5 **Mineral composite surface***
with an undermount sink

*optional extra

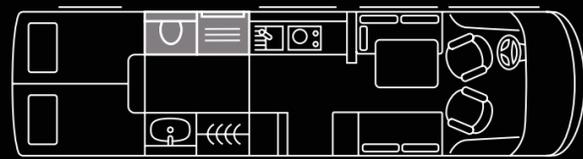

ENSUITE.

Choose to always have your privacy
where you need it.

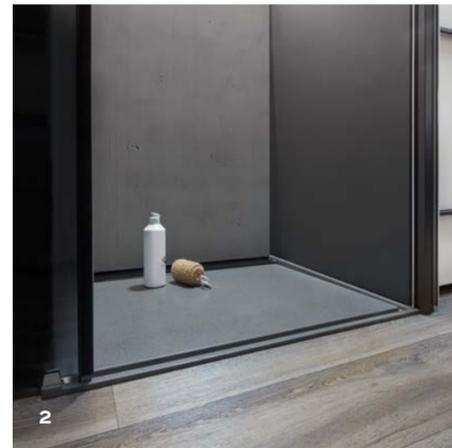

Our bathroom always gives you the privacy you need right where you need it. With a smoked glass sliding door between the shower and toilet and flexible dividing walls between the sleeping and living areas for an enclosed en-suite bathroom.

1

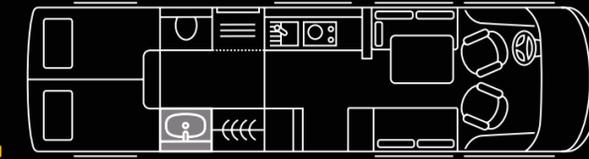

2

3

- 1 Glass dividing wall to sleeping area**
optional button for making it opaque
- 2 Floor-level rain shower with a concrete finish**
shower tray in mineral composite material
- 3 Smart use of space**
with an additional shelf

The spacious bathroom can be separated from the sleeping area with one easy step and provides room for all of your essentials with its integrated drawers and cabinets.

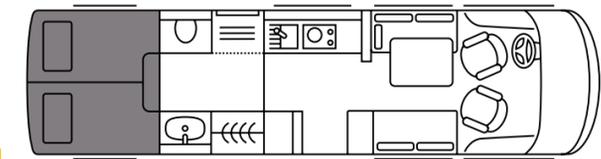

COMFORT ZONE.

Choose to happily call it a night.

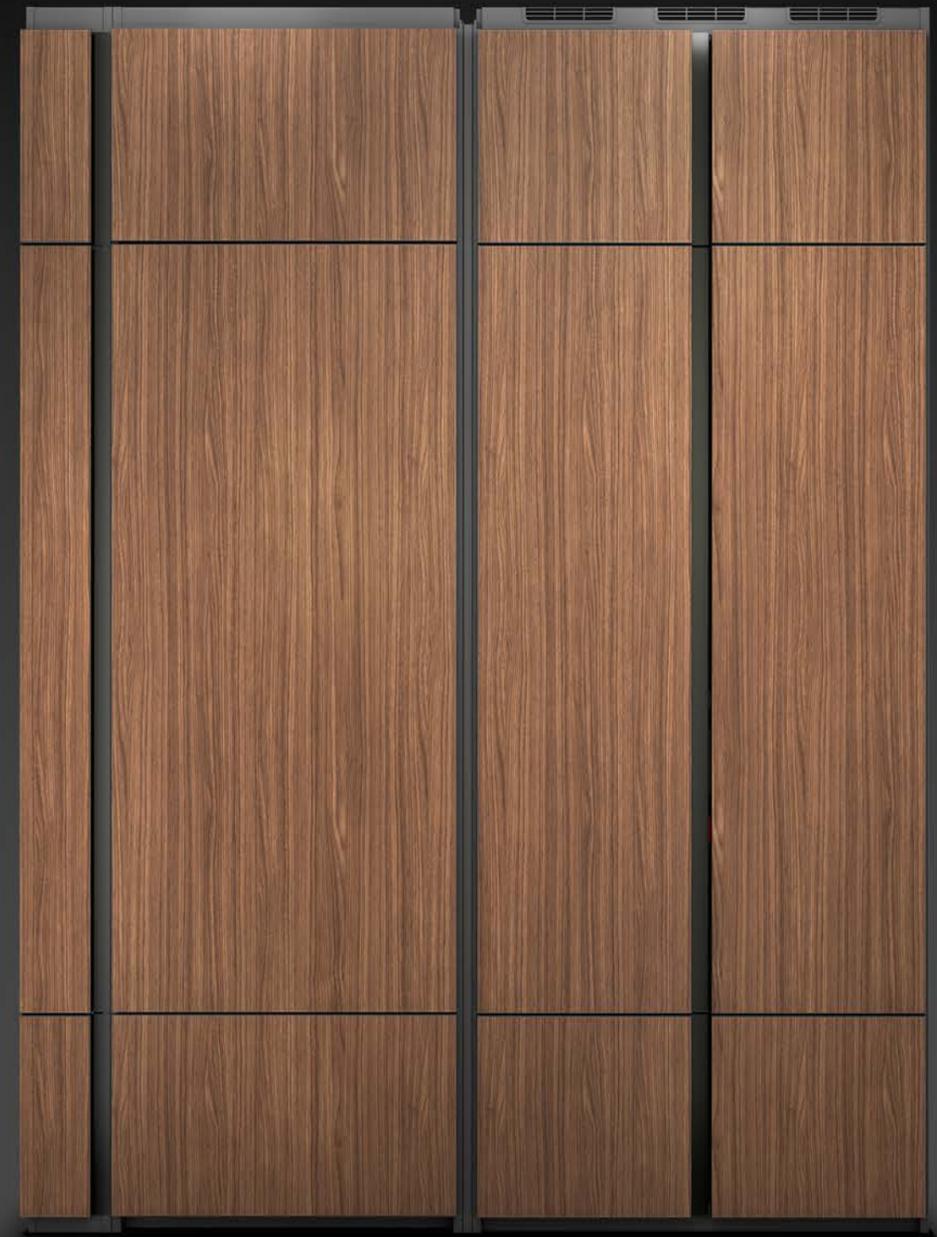

An extra-wide and extra-low entry makes getting to the sleeping area more comfortable than ever. And thanks to the cosy materials and functional details, you might just not feel like getting up again.

- 1 Smartphone docks for convenient charging
- 2 Living area glass door in dark smoked glass

MADE TO MEASURE.

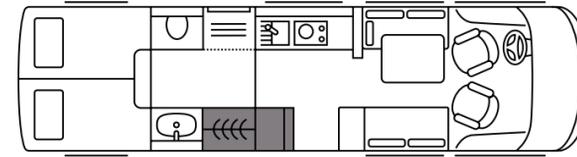

Choose an entire wardrobe
that is just your style.

- 1 Maximum wardrobe area**
with a second module
(optional refrigerated drawer
in the kitchen unit)
- 2 Jewellery drawer**
for your prized treasures
- 3 Trousers rack**
for the perfect overview

A wardrobe where everything fits like a glove. Because you can select each element to precisely meet your requirements. And if you don't need that many clothes, there's even room for a refrigerator.

PERSONAL TOUCH.

Choose to make everything feel just right.

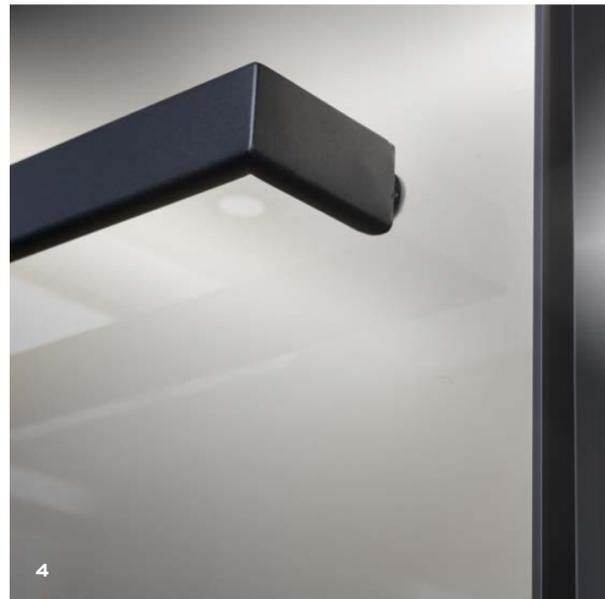

1

3

2

4

- 1 Real wood veneer**
as the surface for all furniture fronts
- 2 Acoustic felt**
for the perfect ambient sound

- 3 Mineral composite material***
with a robust stone finish
- 4 Satin glass**
as an elegant room divider

*optional extra

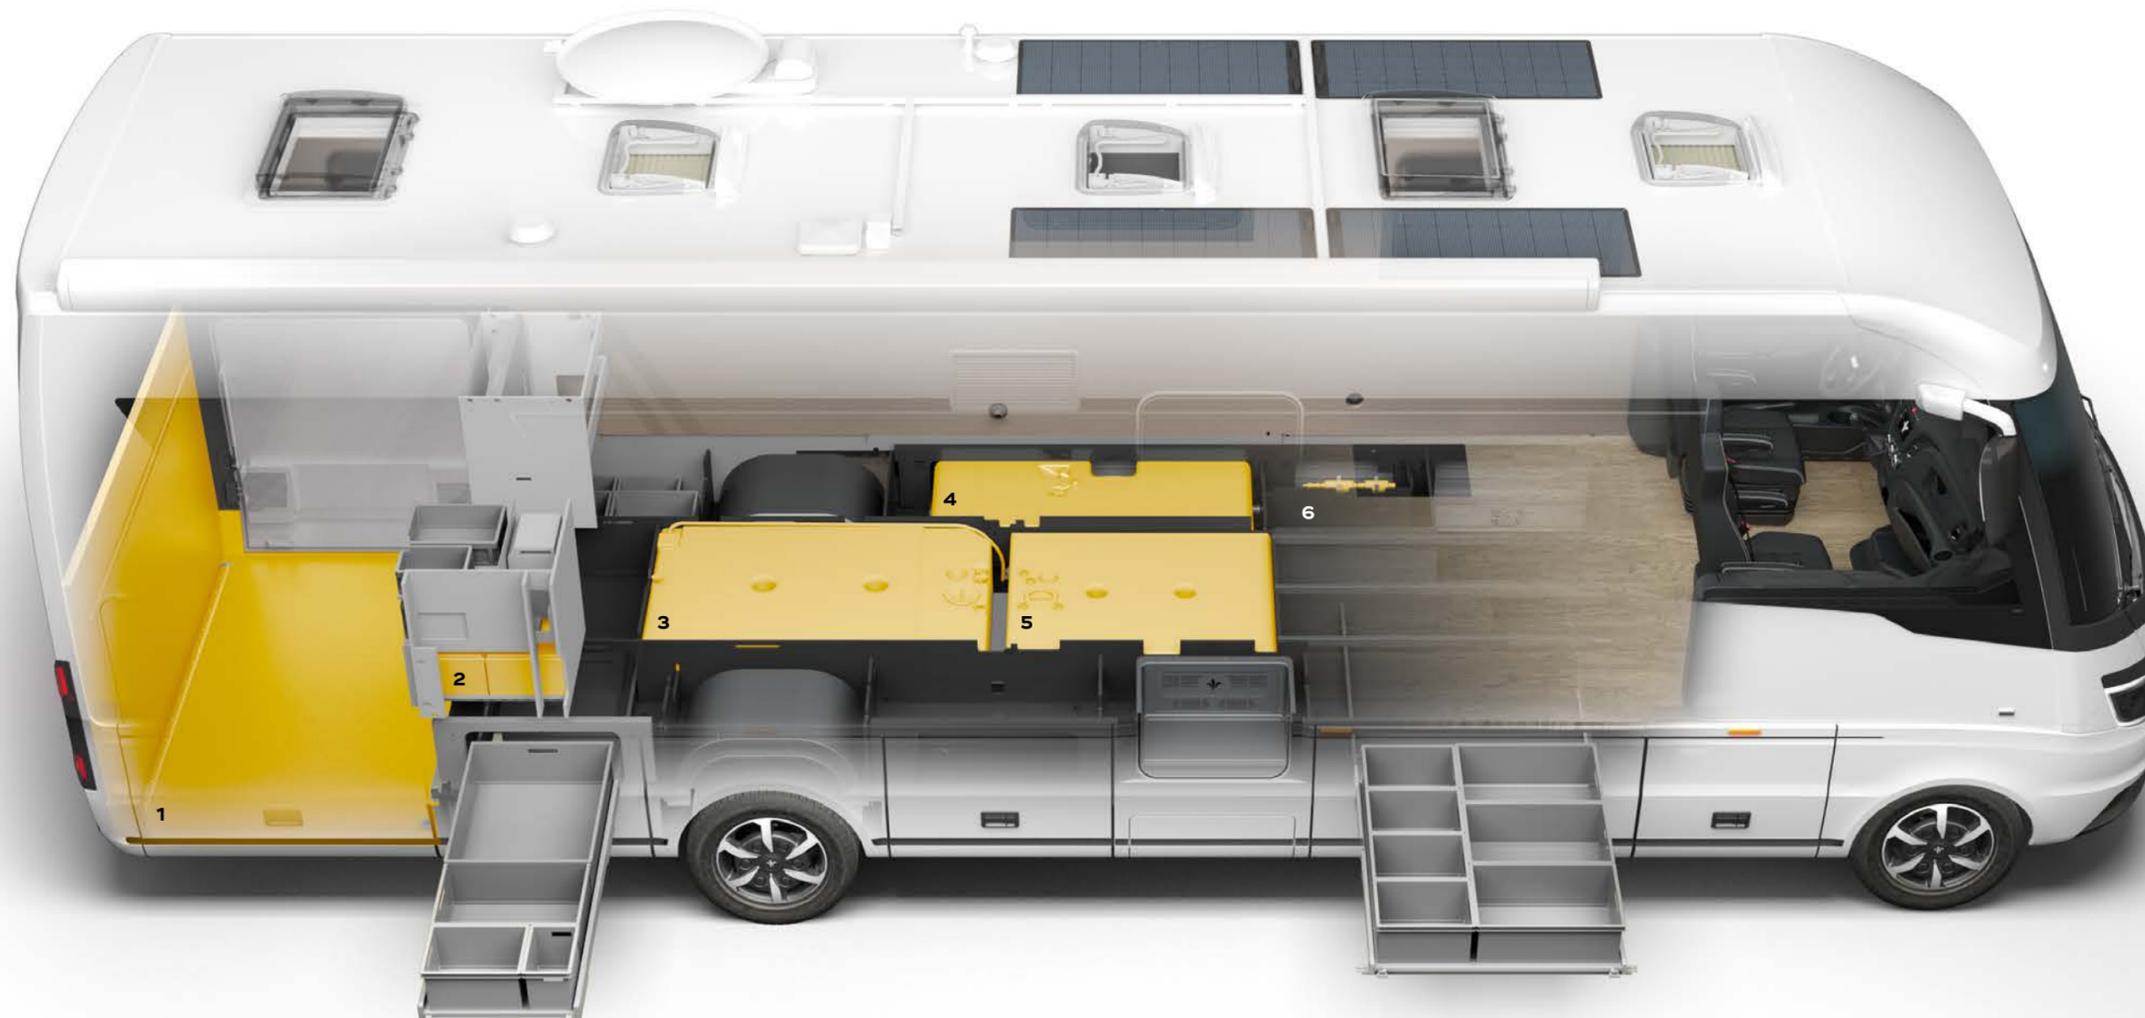

The new Flair abounds with exceptional materials and textures that will be sought in vain in other liners. Each one has been selected with the utmost care to create an unparalleled sense of space. And they just happen to redefine materiality for the industry at the same time.

GROUND- BREAKING.

Choose technology that truly
goes underground.

Our new, highly functional double floor ensures everything always goes smoothly, especially under the surface. This is where all of the important tanks and smart technology elements are hidden away, such as the powerful lithium batteries and our pressure water system – which is also available, if desired, with a UV water filter system for maximum self-sufficiency.

- 1 Rear garage**
with plenty of room for your luggage
- 2 Lithium battery pack***
for self-sufficient energy supply
- 3 Fresh water tank**
370 litres
- 4 Black water tank***
200 litres
- 5 Waste water tank**
250 litres
- 6 Water filter***
with UV light

*optional extra

1 **Smart body door** with a sensor-controlled opening angle

For trouble-free loading and unloading of the drawer units, we have equipped our body door with smart sensor technology. When the storage flap is open, the body door opens no further than 90°. This keeps the door and flap from colliding and is what makes such a large storage space next to the door even possible. It's unique technology that we have registered for a patent.

Pit stops are even more convenient on the driver's side as well – thanks to an AdBlue tank that can easily be filled right next to the diesel tank.

2

2 **Drawer units*** for perfect storage space utilisation
3 **AdBlue tank** with an optimally positioned filler port

3

*optional extra

TRAVEL INSURANCE.

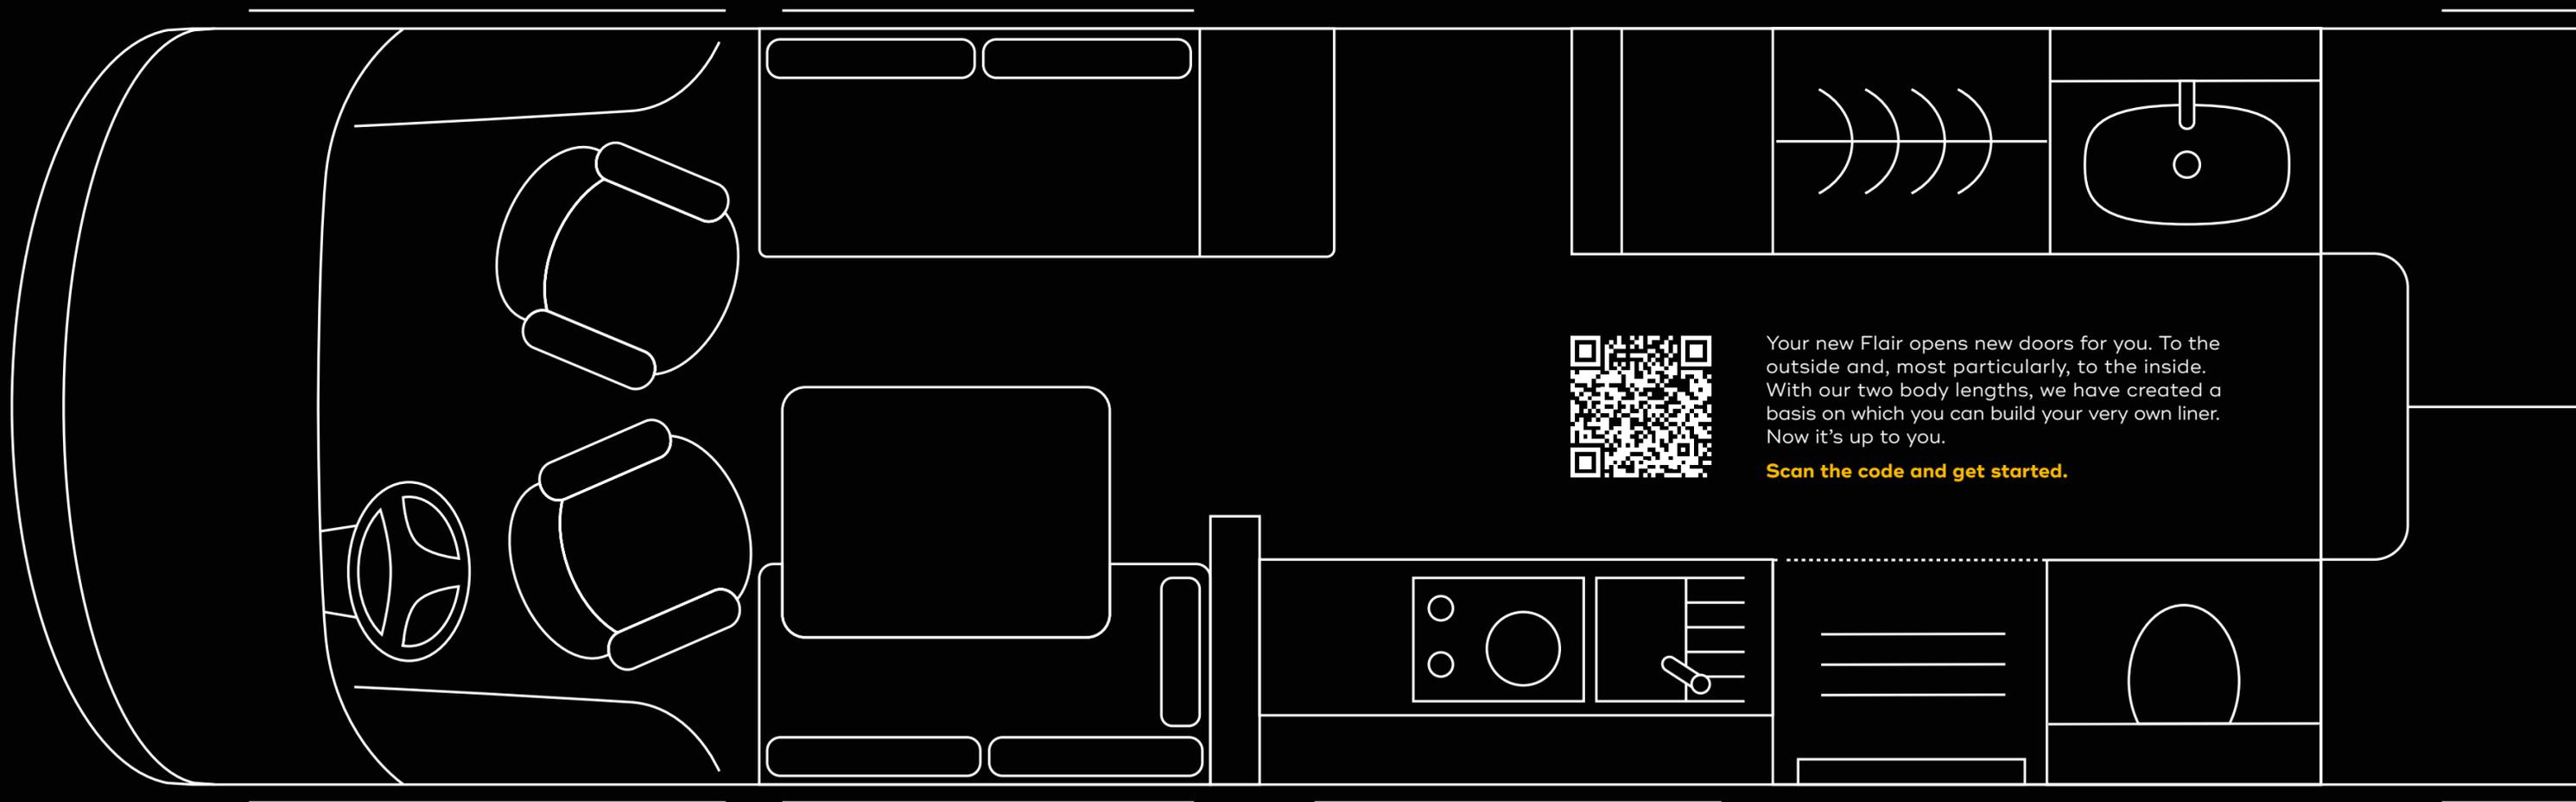

Choose to experience safety
as standard.

Safety is a matter of course for us. Which is why, in addition to ESP, belt tensioners and the Pedal Release System, airbags for the driver and front passenger are included in our safety concept. This makes the Flair unique in the liner class. And makes us pioneers when it comes to driving safety.

CONFIGURATION.

Choose freedom that starts before
the journey begins.

Your new Flair opens new doors for you. To the outside and, most particularly, to the inside. With our two body lengths, we have created a basis on which you can build your very own liner. Now it's up to you.

Scan the code and get started.
